

Heatmap showing the relative abundance of 16 DIVs (rows) across 16 R groups (columns). The color scale represents relative abundance, ranging from 0 (dark blue) to 0.6 (dark red). The dendrogram on the left indicates the hierarchical clustering of DIVs, and the dendrogram on the top indicates the hierarchical clustering of R groups.

Relative Abundance color scale: 0 (dark blue) to 0.6 (dark red).

Row labels (DIVs): C31, C17d, C21, D1, D4, D6, C21ac, C31a, C31.1, C31.10, C17i, C17e, C31j, C17, C21bk.

Column labels (R groups): R58, R59, R60, R55, R57, R56, R72, R71, R65, R69, R67, R66, R62, R64, R63, R68, R61.
